

iplicit. Revolutionising care home accounting

Helping care home groups reduce complexity, control costs & eliminate manual processes

iplicit's award-winning care and nursing home accounting software helps you smooth out complexity, control costs and eliminate a lot of the manual processes.

We work with care home groups and nonprofits, helping them move from on-premise, legacy systems and entry-level cloud products to our Cloud accounting platform in just a few weeks. It is a cost-effective solution specially designed for multi-entity accounting.

”

We were using Exchequer when I joined Yorkshire Wildlife Trust, but we'd grown to a £10m-£12m turnover and it was creaking at the seams. To reconcile the main bank account would have taken half a day. Now it takes five minutes.

Darren Tiffney

Director of Finance and Central Services,
Yorkshire Wildlife Trust

A trusted partner throughout

Our expert implementation team will support you through the entire onboarding process, with customers up and running in days rather than months.

Once you're live, you'll have ongoing customer support to ensure you're getting the most out of iplicit and your software is constantly upgraded to provide additional features, without affecting your customised set-up.

”

The timesaving we experience with iplicit is enormous! We're currently preparing our year-end process, and already we're saving six weeks consolidating the various project balance sheets.

Sandra Tcheumeni Boschet

Head of Finance and Administration,
Health Poverty Action

Compliance

Don't worry - we'll make sure you're prepared for your next audit, providing the full detail required by regulators, supporters and donors.

Configurable multi-level workflow authorisation

iplicit's configurable workflow authorisation ensures that processes are followed with a full audit trail of submissions and approvals.

Multi-Level GL Analysis

Understand actuals vs. budgets by activity, cost centre, department, project, fund, location - it's all configurable.

Budgeting

Monitor and control budgets at operational and consolidated accounts levels.

Document management

Drag and drop all related documents against a client, home, requisition or invoice with multiple OCR options.

Multi-currency

iplicit is a full, multi- currency solution.

Multi-dimensional reporting

iplicit's flexible structure and unlimited dimensions enables full analysis by entity, home, resident, service and fund.

Financial consolidation

Eliminate manual consolidation with a single unified platform for your multi-entity and multi-currency accounting and consolidation needs.

Integration

iplicit has been designed to ensure simple integration with other third party systems including payroll, billing, EpicCare patient records system and Fusion Care Home Management software.

Multi-jurisdictional VAT

Easily manage the complexities associated with multi- jurisdiction VAT across all entities.

Multiple funding sources

Allocate bulk receipts from the NHS across multiple entities, homes and residents. Set up "resident accounts" to easily track multiple sponsors for one resident.

Fund, SOFA and SORP reporting

iplicit's fund management capability enables you to see instantly, monies from various grants and funds. These can be segmented by fund-type to enable restricted and non-restricted views.
