Your financial management. Simplified

iplicit.
Award-winning cloud accounting software for insurance companies

iplicit provides unrivalled insights to give brokers the edge

Insurance brokers need to act fast on reliable financial data. iplicit is an award- winning and agile alternative to the complex systems in the marketplace such as NetSuite, Sage Intacct and Dynamics.

Our powerful, true-cloud accounting software offers the visibility and control that insurance companies need from a finance system, in order to drive consistent growth, coupled with the flexibility required to pivot and adapt to the ever-changing landscape.

> The real-time reporting has been business changing. We've been able to consolidate all the businesses at once so we can grab very realistic and up-to-date snapshots at a moment's notice.

Cimpli
Your financial management. Simplified

iplicit Authorised Partner.

A trusted partner throughout

Our expert implementation team will support you through the entire onboarding process, with customers up and running in an average of just 16 chargeable days.

Once you're live, you'll have ongoing customer support to ensure you're getting the most out of iplicit and your software is constantly upgraded to provide additional features, without affecting your customised set-up.

" iplicit was unlike anything we'd seen before and the staff attentively listened to our needs. And the icing on the cake for us was the fact that from the moment we decided to action and proceed to getting people set up, trained, it literally took 15 days!

Sarah Smith

Group Operations Director,
A-One Insurance Group

Unlimited Flexibility
iplicit offers unlimited dimensions allowing customers to slice and dice their data in as many ways as they need to gain the insight required to drive growth.

Automated Billing & Revenue Recognition
Utilising our automation engine, customers can fully automate their billing and rev rec processes, removing the need for clunky and error-prone spreadsheets.

Project Accounting
iplicit's powerful project module allows for users to easy manage and gain visibility over key project metrics such as project profitability.

Real-time Consolidation
Our single unified architecture means that transactions are only entered once and are automatically consolidated in real-time for easy reporting.

API-first Architecture
Built to be extensible, iplict is easily integrated into other key business systems to provide a real-time single source of truth.

AP Automation
Optimise your processes and utilise time saving technology to remove the burden of manually managing your precure to pay process.

Dashboard Reporting & Analytics
Create powerful dashboard reports to easily visualise key metrics and KPIs.

Credit Control Capabilities
Easily customise your dunning processes to improve payment collection and reduce DSO. We also offer native direct debit functionality too.

Timesheets & Expenses
iplicit's timesheets and expenses available through our mobile app or on any modern browser.

Intuitive Workflow Engine
Easily customise workflows in iplicit so that the system works the way you need it to with all the approvals and controls you require.

Affordable & Accessible
With a highly competitive mid-market price point and an average of 15 days to go live, iplicit puts the power of enterprise-level accounting software in the hands of all mid-market organisations.
