Accounting software for growing SaaS and technology companies

iplicit - an award-winning alternative to the traditional ERPs on the market

Software and tech companies need a scalable, flexible and powerful finance system that can keep pace with their growth.

iplicit offers a new alternative to the traditional ERPs on the market, making enterprise level functionality available to more companies than ever before.

Giving growing tech companies all the information they need to make quick and accurate decisions.

> I really wanted to find a system that we would stick with and that would scale with us.
>
> I didn't want to be going through it all again in two years... and the implementation and support team has been amazing!

A trusted partner throughout

Our expert implementation team will support you through the entire onboarding process, with customers up and running in days rather than months.

Once you're live, you'll have ongoing customer support to ensure you're getting the most out of iplicit and your software is constantly upgraded to provide additional features, without affecting your customised set-up.

Unlimited Flexibility
iplicit offers unlimited dimensions allowing customers to slice and dice their data in as many ways as they need to gain the insight required to drive growth.

Automated Billing & Revenue Recognition
Utilising our automation engine, customers can fully automate their billing and rev rec processes, removing the need for clunky and error-prone spreadsheets.

Project Accounting
iplicit's powerful project module allows for users to easy manage and gain visibility over key project metrics such as project profitability.

Real-time Consolidation
Our single unified architecture means that transactions are only entered once and are automatically consolidated in real-time for easy reporting.

API-first Architecture
Built to be extensible, iplict is easily integrated into other key business systems to provide a real-time single source of truth.

AP Automation
Optimise your processes and utilise time saving technology to remove the burden of manually managing your precure to pay process.

Dashboard Reporting & Analytics
Create powerful dashboard reports to easily visualise key metrics and KPIs.

Credit Control Capabilities
Easily customise your dunning processes to improve payment collection and reduce DSO. We also offer native direct debit functionality too.

Timesheets & Expenses
iplicit's timesheets and expenses available through our mobile app or on any modern browser.

Intuitive Workflow Engine
Easily customise workflows in iplicit so that the system works the way you need it to with all the approvals and controls you require.

Affordable & Accessible
With a highly competitive mid-market price point and an average of 15 days to go live, iplicit puts the power of enterprise-level accounting software in the hands of all mid-market organisations.
